

## Are you a candidate for Smile Today™?

Only your dentist can say for sure, but you may be a candidate for Smile Today™ if you:

- Have lost some or all of your natural teeth
- Don't want to wait to have functional, non-removable and beautiful-looking teeth
- Have been evaluated to be in satisfactory overall health

Don't wait – ask your dentist now for an evaluation appointment to find out if you are a candidate for Smile Today™. Only your dentist can recommend the best treatment option available to replace your missing teeth.

## Are there risks associated with dental implants?

While uncommon, complications can occur during and after surgery. Some complications include, but are not limited to, infection, blood clots, implant breakage, nerve injury, failure to integrate and loss of integration, any of which can require additional surgery. Although dental implant surgery is extremely successful in most cases, some patients still experience pain. Factors such as a patient's post-surgery activities can affect the longevity of the dental implant. Be sure to discuss these and other risks with your dentist.

### Summary

The decision to have surgery is sometimes difficult. Millions of others have made the choice to have dental implants, allowing them to improve their quality of life. This brochure is not intended to replace the experience and counsel of your dentist. If you have any further questions, please speak with your dentist.

BIOMET 3V is a manufacturer of dental implants and oral reconstruction products and does not practice medicine. This brochure was prepared in conjunction with a licensed dental professional and is presented as general information only. Only a dentist can determine what treatment is appropriate. Individual results may vary. Placement of dental implants may be precluded by patient conditions that are contraindications for surgery. For more information on risks, warnings, and possible adverse effects, see the Patient Risk Information section found within [www.biomet3vsmile.com](http://www.biomet3vsmile.com). Always ask your dentist if you have any questions regarding your particular condition or treatment options.

A natural, beautiful smile –  
**today.**

Learn why Smile Today™ may be right for you.

confidence!

## Smile with confidence!

Smile Today™ is a dental implant procedure that can have you smiling again with beautiful, natural-looking, non-removable teeth. This amazing result can be achieved in just one visit and can instantly improve your quality of life.

### Benefits of Smile Today™:

- Beautiful, natural-looking teeth in one day
- Freedom to enjoy your favorite foods
- Your new teeth are firmly attached to dental implants, which are affixed to your natural bone structure; no more embarrassing situations
- Instantly eliminates loose-fitting or painful dentures

Dental implants may be  
the right choice for you.

### A winning smile in one day.

Whether you've recently lost some or all of your natural teeth or have worn dentures for years, Smile Today™ can help you regain your confidence and your smile.

### Finally, something to smile about. So, what are you waiting for?

Whether you're seeking to replace your lower teeth, upper teeth or both, Smile Today™ could be the right answer for you. Your dentist will determine which teeth need to be removed and replace them with new teeth, restoring the natural-looking smile that you've been missing.

Your life shouldn't have to wait on your dental care. Dental implants mean a wider variety of food choices, freedom from loose-fitting dentures and the healthy, confident smile you no longer have to live without.

#### How do I know if Smile Today™ is right for me?

Every patient situation is different, so talk to your dentist to find out if Smile Today™ is right for you.

#### How long will it take to heal from surgery?

Healing times vary from patient to patient; your dentist will set a follow-up schedule to evaluate your progress.

#### What will I be able to eat?

Smile Today™ will allow you to enjoy the hard and chewy foods that you may have avoided in the past.

#### Will I need to go back to my dentist for routine checkups?

Yes, you will need to have regularly scheduled hygiene visits.

#### Do I still need denture supplies like adhesives and cleaners?

No, Smile Today™ utilizes dental implants to support new teeth. These teeth look, feel and function just like your natural teeth. Dental implants eliminate the need for frequent removal, saving you the hassle of costly repairs.

#### Will anyone notice that I have dental implants?

No, your teeth will look natural and function normally.

**Don't wait another minute to start enjoying your life. Talk to your dentist to find out if Smile Today™ is right for you.**
